VOLUME 32 NO. 1–3 SPECIAL ISSUE

GEOCHEMICAL EXPLORATION 1987

Selected papers of the 12th International Geochemical Exploration Symposium and the 4th Symposium on Methods of Geochemical Prospecting, held in Orleans (France), 23–26 April, 1987

STUART E. JENNESS (Editor)

CONTENTS

Introduction — E.M. Cameron xi
Discours d'ouverture — M. Allègre xiii
Opening address — E. Wilhelm xvi
Opening address — S. Hoffman xix

Gold, including Lateritic Environments

STAN J. HOFFMAN and PAUL M. TAUFEN (Editors)

Effects of valley and local channel morphology on the distribution of gold in stream sediments from Harris Creek, British Columbia, Canada
S.J. Day and W.K. Fletcher (Vancouver, B.C., Canada) 1
Morphology and geochemistry of gold grains in lateritic profiles of southern Mali
Ph. Freyssinet (Strasbourg, France), H. Zeegers (Orléans, France) and Y. Tardy (Strasbourg, France) 17
Gold and associated trace elements in Newfoundland lake sediment: their application to gold exploration
J. McConnell and P. Davenport (St. John's, Nfld., Canada) 33
Geochemical signatures of gold-bearing shear zones in the Variscan basement, France (Abstract)
M. Bonnemaison, D. Bonnefoy and C. Braux (Orléans, France) 51
Soil geochemistry of Mother Lode-type gold deposits in the Hodson mining district, central California, U.S.A. (Abstract of extended abstract)
M.A. Chaffee and R.H. Hill (Denver, CO, U.S.A.) 53
Application of fluid-inclusion studies to exploration in gold-bearing shear zones: the Cros-Gallet deposit (France) and the Sanoukou prospect (Mali) (Abstract)
P. Hubert, C. Beny and J.C. Touray (Orléans, France) 57
Geochemical signature (bedrock and saprolite) of gold mineralization and associated hydrothermal alteration at Dorlin, French Guyana (Extended abstract)
G.H. Taylor (San Francisco, CA, U.S.A.), B. Coste, A. Lambert and H. Zeegers (Orléans, France) 59
Geochemical prospecting for gold in the county of Jämtland, upper central Sweden (Extended abstract)
Ö. Toverud (Stockholm, Sweden) 61

Exploration in Tropical Terrains

CHARLES R.M. BUTT and RAYMOND E. SMITH (Editors)

Classification of geochemical exploration models for tropically weathered terrains
C.R.M. Butt (Wembley, W.A., Australia) and H. Zeegers (Orléans, France) 65
Geochemistry and mineralogy of laterites in the Sula Mountains greenstone belt, Lake Sonfon gold district, Sierra Leone
T.C. Davies, G. Friedrich and A. Wiechowski (Aachen, F.R.G.) 75
Dispersion of gold and base metals in the Mborguéné lateritic profile, east Cameroun
Ph. Freyssinet (Strasbourg, France), P. Lecomte (Orléans, France) and A. Edimo (Yaoundé, Cameroun) 99
Behaviour of lead and zinc in calcrete-bearing soils around Bou Grine, Tunisia — its application to geochemical exploration
A. Guedria (Tunis, Tunisia), J. Trichet and E. Wilhelm (Orléans, France) 117
Some implications of lateritic weathering on geochemical prospection — two Brazilian examples
J.C. Parisot (Poitiers, France), F. Soubies (Toulouse, France), P. Audry (Salvador, Brazil) and F. Espourteille (Sao Paulo, Brazil) 133
The correlation between geochemical data and SPOT satellite imagery of lateritic terrain in southern Mali
C. Roquin, T. Dandjinou, Ph. Freyssinet and J.C. Pion (Strasbourg, France) 149
The implications to exploration of chalcophile corridors in the Archaean Yilgarn Block, Western Australia, as revealed by laterite geochemistry
R.E. Smith (Wembley, W.A., Australia), R.D. Birrell (Subiaco, W.A., Australia) and J.F. Brigden (West Perth, W.A., Australia) 169
Tropical weathering control of Ni, Cu, Co, and platinum group element distributions at the O'Toole Ni-Cu sulphide deposit, Minas Gerais, Brazil
P.M. Taufen and C.M.L. Marchetto (Rio de Janeiro, Brazil) 185

Biogeochemistry

ROBERT R. BROOKS and COLIN E. DUNN (Editors)

Using plants as an exploration tool for gold
F.D. Busche (Tomball, TX, U.S.A.) 199
Platinum group metals in common plants of northern forests: developments in analytical methods, and the application of biogeochemistry to exploration strategies
C.E. Dunn and G.E.M. Hall (Ottawa, Ont., Canada), and E. Hoffman (Brantford, Ont., Canada) 211
Geobotanical and biogeochemical exploration for gold in the Sattasvaara volcanic complex, Finnish Lapland
E. Pulkkinen (Rovaniemi, Finland), M.-L. Räisänen (Kuopio, Finland) and L. Ukonmaanaho (Linnanmaa, Finland) 223

Exploration using Transported Overburden

BJORN BØLVIKEN and WILLIAM B. COKER (Editors)

Geochemical Atlas of Finland: preliminary aspects
T. Koljonen, N. Gustavsson, P. Noras and H. Tanskanen (Espoo, Finland) 231
An attempt for selectively using the chemical dispersion of metals to search for hidden deposits
L. Laville-Timsit and E. Wilhelm (Orléans, France) 243

Overbank sediment: a representative sample medium for regional geochemical mapping
R.T. Ottesen (Trondheim, Norway), J. Bogen (Oslo, Norway), B. Bølviken and T. Volden (Trondheim, Norway) 257
Use of stream sediment elemental enrichment factors in geochemical exploration for carbonatite and uranium, Arkansas, U.S.A.
A. Sadeghi and K.F. Steele (Fayetteville, AR, U.S.A.) 279
Enrichment of As and S in the finest fractions of crushed rock samples — an experimental study simulating the formation of till
R. Salminen, A. Hartikainen and P. Lestinen (Kuopio, Finland) 287
Till geochemistry at the Great Gull scheelite prospects, Newfoundland, Canada: a case history in orientation and discovery (Extended abstract)
W.B. Coker (Ottawa, Ont., Canada), D.J. Robertson (Windsor, N.S., Canada) and R.J. Snow (Wolfville, N.S., Canada) 291
Temporal variations in the trace-element content of stream sediments: an example from the seasonally wet-dry tropics (Extended abstract)
J. Ridgway and P.N. Dunkley (Nottingham, U.K.) 295
Geochemical exploration for chromite deposits, Piedmont Upland Province, Maryland, U.S.A. (Extended abstract)
W. Yang (Pullman, WA, U.S.A.) and F.R. Siegel (Washington, D.C., U.S.A.) 299

Analytical Methods/Isotopes

GWENDY E.M. HALL (Editor)

Instrumental neutron activation analysis as an analytical technique for gold exploration
E.L. Hoffman (Brantford, Ont., Canada) 301
Gold exploration using lead isotopes at Tennant Creek, Australia (Extended abstract)
B.L. Gulson (North Ryde, N.S.W., Australia), R.R. Large (Hobart, Tasmania, Australia) and P.M. Porritt (North Ryde, N.S.W., Australia) 309
A comparison of lead-isotope measurements on exploration-type samples using inductively coupled plasma and thermal ionization mass spectrometry (Extended abstract)
B.L. Gulson (North Ryde, N.S.W., Australia), A.L. Meier and S.E. Church (Denver, CO, U.S.A.) and K.J. Mizon (North Ryde, N.S.W., Australia) 311
Lead isotopic signatures of the polymetallic mineralization in the Ariab District, Red Sea Hills, northeastern Sudan (Extended abstract)
E. Marcoux, F. Cottard and G. Recoche (Orléans, France), Y. El Samani (Khartoum, Sudan), J.Y. Calvez and Y. Deschamps (Orléans, France) 315

Data Processing Interpretation

ROBERT G. GARRETT and PETER ROGERS (Editors)

The chi-square plot: a tool for multivariate outlier recognition
R.G. Garrett (Ottawa, Ont., Canada) 319
SERGE: an expert system to recognize geochemical anomalies (Abstract)
D. Bonnefoy and M. Jébrak (Orléans, France), M.C. Rousset (Orsay, France) and H. Zeegers (Orléans, France) 343
Geochemical prospecting in complex sample media — multivariate data analysis of indirect observations (PLS-regression between modal mineralogy and geochemistry) (Extended abstract)
K.H. Esbensen (Oslo, Norway) and A. Steenfelt (Copenhagen, Denmark) 345

Data analysis and geochemical mapping for the regional stream sediment survey of Austria (Abstract)
H. Kürzl (Leoben, Austria) 349
Multiple data-type processing as applied to the selection of areas with high gold potential in French Guyana (Abstract)
J.L. Lasserre, J. Testard and B. Coste (Orléans, France) 353
Comparison of probability plots and the gap statistic in the selection of thresholds for exploration geochemistry data (Extended abstract)
C.R. Stanley and A.J. Sinclair (Vancouver, B.C., Canada) 355

Rock Geochemistry

MAURICE A. CHAFFEE and PETER DAVENPORT (Editors)

Lithogeochemical and mineralogical indicators of Andean precious-metal and polymetallic vein mineralization
J.D. Appleton (Nottingham, U.K.), J. Claros (Oruro, Bolivia) and W. Rodriguez (Lima, Peru) 359
On prospecting for porphyry copper mineralization in intracontinental mobile zones (Mongol-Okhotsk belt, Mongolian People's Republic)
P.V. Koval (Irkutsk, U.S.S.R.), A. Gotovsuren and S. Ariunbileg (Ulan-Bator, Mongolian People's Republic), and Yu.I. Libatorov (Irkutsk, U.S.S.R.) 369
Thermal and energy factors of metal concentration in igneous plutons: an application to metallogenic analysis and exploration
V.G. Zolotarev (Moscow, U.S.S.R.) 381
Application of the zoning of ore-associated elements to exploration for volcanogenic massive sulphide deposits: a case study of the Pukkiharju Zn-Cu prospect, central Finland (Extended abstract)
R. Lahtinen (Espoo, Finland) 395
Procedure for the evaluation of lithogeochemical anomalies in large-scale mineral exploration (Extended abstract)
E.K. Burenkov, G.N. Mukhitdinov and I.N. Reznikov (Moscow, U.S.S.R.) 399
Contribution of organic geochemistry to regional exploration and characterization of Mississippi Valley-type mineralization in the Causses basin (France (Extended abstract)
J.R. Disnar and B. Gauthier (Orléans, France) 401
Geochemical character of the hydrothermal alteration zones around the Madenkoy-Siirt massive sulfide deposit and implications for geochemical exploration (Extended abstract)
A. Erler (Ankara, Turkey) 405
Mineral exploration for gold-bearing levels in the central-western zone of Asturias (Spain) (Abstract)
J. Loredo, J. Garcia Iglesias and F. Ruiz (Oviedo, Spain) 409
Geological, geochemical and metallogenetic evaluation of the Pontgibaud vein swarm and its surrounding area, Massif Central, France (Abstract)
J.-L. Marroncle, J.-R. La Chapelain, J.-J. Perichaud and J.-C. Prevot (Orleans, France) 411
Geochemical signatures of possible deep-seated ore deposits in Tertiary volcanic centers, Arizona and New Mexico, U.S.A. (Extended abstract)
K.C. Watts, Jr. and J.R. Hassemer (Denver, CO, U.S.A.) 413

French papers

HUBERT ZEEGERS (Editor)

Géochimie de la minéralisation aurifère á la mine Eldrich, region de Rouyn-Noranda, Québec, Canada
P. Trudel, Y. Methot and G. Perrault (Montreal, Qué., Canada) 415
Prospection géochimique dans le centre et le nord-ouest du Burkina Faso
J. Kabore, G. Mathez, M.F. Ouedraogo and V. Sattran (Ouagadougou, Burkina Faso) 429
Caractérisation d'anomalies géochimiques par la géostatistique multivariable
H. Wackernagel (Fontainebleau, France) and C. Butenuth (Aachen, F.R.G.) 437
L'évaluation quantitative des anomalies géochimiques en sols résiduels: une aide pour le choix des prospects
J. Barbier (Orléans, France) 445
Prise en compte de la surface spécifique des prélèvements en prospection géochimique: exemple de l'uranium dans les sédiments de ruisseau
J.C. Samama (Nancy, France), J.J. Royer (Vandoeuvre-lès-Nancy, France) and C. N'Ganzi (Orléans, France) 453
Contribution de la géochimie tridimensionnelle à la découverte, sous couverture allochtone, d'extensions du gisement polymétallique de Thalanga (Queensland, Australia)
C. Granier (Trappes, France), J. Hartley (Queensland, Australia), J.C. Michaud (Trappes, France) and G. Troly (Paris, France) 467

Workshop Reports

Report on Workshop 2: Data processing
R.G. Garrett (Ottawa, Ont., Canada) and P. Leymarie (Valbonne, France) 477
Workshop 4: Geochemical exploration in lateritic environments
G.H.W. Friedrich (Aachen, F.R.G.), D. Nahon (Marseille, France) and R.E. Smith (Wembley, Australia) 485
